I wish to apply to have hens on my allotment at:

Allotment site: ..... Plot No.: .....

I agree that there must be no more than six hens only (all female) and **no cockerels**. They must be housed securely and all food kept in sealed containers. **Any food which is uneaten must be cleared away so as not to encourage vermin.**

During the allotment inspections officers will check that the hens are suitably housed and being well cared for, if they are not happy that this is the case, permission can be revoked.

The Town Council will pass on your contact details to the RSPCA if requested to do so.
